"The Crescent" a landmark home on the National Register of Historic Places, was built by Col. William S. West in 1898 and in 1951 became the home of all the Garden Clubs in Valdosta.

The Crescent at Valdosta Garden Center and Keep Lowndes/Valdosta Beautiful have partnered together to give the community of Valdosta the rare opportunity to leave a personalized mark on one of Valdosta's most beautiful and historical landmarks, The Crescent. With the purchase of your $100 commemorative brick, not only will you be leaving a memento to be treasured for years to come, but you will also be helping one of Valdosta's finest community service organizations. Keep Lowndes/Valdosta Beautiful, a nonprofit organization, has been working hard within the Valdosta and Lowndes County communities for over a decade to promote environmental stewardship and beautification by empowering individuals through public education. Your commemorative brick will be placed around a quaint fountain overlooking one of The Crescent's beautiful gardens. All proceeds from the brick sale will assist in KLVB's mission to strive for a cleaner, healthier Valdosta community, so help your local community by "Giving the Gift of the Crescent".
